AccuBindPro Desktop Binding System

AccuBindPro Desktop Binding System

Desktop Perfect Binding System

The AccuBindPro is the ideal desktop binding system for creating professionally bound documents. The AccuBindPro binds each book with a true linen finish thermal adhesive tape that hold up to repeated openings and closings without cracking or pulling apart. The attractive linen finish of the binding strips come in 11 exciting colors and in sizes to bind from 5 to 325 sheets that eliminate the need for punching and re-assembling of books.

BQ-150 Perfect Binder

The BQ-150 Perfect Binder is designed specifically for cut sheet applications and offers simple operation, making it easy for any operator to achieve high quality books with minimal training. A simple switch allows you to select one of three binding modes: perfect binding with two way notching, perfect binding without notching and padding. Other features include an electric book clamp, an efficient paper dust vacuum system and a dynamic nipper table for auto book sizing.
