### WireMac-Duo MANUAL WIRE BINDING MACHINE

### Wire-Mac-Duo All-In-One Punch and Binding Machine

Based on the best selling WireMac, the WireMac-Duo offers both 2:1 and 3:1 pitch die sets installed in a single unit, with no need to change dies. Punch and bind from 2 sheets to over 200 sheets, with a 20 sheet single punching capacity, plus 14" width punching capacity with open sides for even wider documents.

Features include: **Die Disengagement Pins** to allow the punching of any size document while preventing partial side-end perforation

- **Continuous Punch Guide** (3:1 only) & **Open Throats** for punching documents larger than 14"
- **Depth Margin Controls** provide the correct punching margin depth needed for all wire sizes and maximizes tear resistance
- **Side Margin Controls** provide a well-centered punch for all document sizes
- **Master Selector** determines the correct wire diameter, closing position, depth margin, wire pitch
- **Diameter Scale** measures document's thickness in order to select best wire size option. **Closing Capacity:** From 3/16" to 1-1/4"

All metal construction.

### WireMac Wire Punch and Binding Machine

Akiles WireMac-21 (2:1 pitch) and 31 (3:1 pitch) deliver efficiency and productivity. Its full range of functions and state of the art engineering were especially designed to fully meet the needs of the wire binding industry. The heavy-duty WireMac offers a 20 sheet (20 lbs) single punching capacity with 14" width punching capacity (open sides for even wider documents). All dies can be independently disengaged, to allow the punching of any size document while preventing partial side-end perforation.

Additional features include: Closer Selector, Master Selector, Metal Wire Snatch, Wire Diameter Scale, Side Margins Control, Punching Margin Control.

#### Closing capacity:

WireMac-31: From 3/16" to 9/16"

WireMac-21: From 3/16" to 1-1/4"

All metal construction.
