

The CSTON-1 is a revolutionary manual stroking grommet-attaching machine. Although not powered with electricity or pneumatic pressure, it uses almost no hand force for setting grommets. Minimal hand power is used to pull the handle toward the operator which initiates a build-up of internal pressure created by a carefully engineered spring mechanism. The machine does the rest! CSTON-1 offers less effort and more comfort than a traditional hand press with greater precision. The CSTON-1 should be strongly considered if you are not ready to invest in a pneumatic or electric machine but would like more consistent results and less fatigue for the operator.

Technical Specifications for ClipsShop® CSTON-1

MATERIAL EXAMPLES	Chipboard, poster board, paper, vinyl, other plastics, industrial textiles and many more
FEEDING	Manual grommet & washer feed
COMPATIBLE GROMMET SIZES	#5.5, #3, #2, #1, #0, #00, #X00, #XX00
GrommetSniper™ COMPATIBLE	Yes* NEW MODEL AVAILABLE SUMMER 2016
STROKE CONTROL	Spring press sleeve & lock nut; adjustable body height
STROKE FORCE	18 kN / 1835 kgf (maximum)
THROAT DEPTH	5-1/2" / 140 mm from grommet center
MOUNTING	Bench mount with included screws or use free standing
NET WEIGHT	46 lbs / 21 kg
DIMENSIONS (W*D*H)	7-3/4" x 12-1/4" x 20-1/2" / 200 mm*310 mm*520 mm

FEATURES

- **ClipsShop® GrommetSniper™ compatible** — Use this industry-first alignment fixture for precise alignment of grommets from edge of material as well as consistent spacing between grommets
- **Requires minimum hand press power and effort** — The required stroking pressure is sourced by the spring system inside the machine. This makes the machine very easy for anyone to use with little physical effort and reduced fatigue or discomfort
- **Adjustable stroking pressure level** — The stroking power can be adjusted from the screw system located on the top of the machine for perfectly applied grommets with great repeatability
- **Adjustable height** — Versatile to meet the demands of a variety of projects, facilitates application of grommets to a wide range of materials
- **Perfect for working in a seated position**
- **Interchangeable setting dies** — Compatible with ClipsShop® brand stainless steel self-piercing dies for grommets 1/8" ID (#XX00) up to 11/16" ID (#5.5). Allows setting many different sizes of grommets by means of a simple die-changing process that takes only seconds
- **Utilizes self-piercing grommets** — The hole is cut and grommet set in one operation saving time and money. Grommets are solid brass so grommets won't ever rust
- **Heavy-duty industrial grade machine** — The durable European-made ClipsShop® CSTON-1 stroking hand press will provide years of professional performance
