

# WALL MOUNT CUTTERS

## Alta99

### Automated Substrate Cutter

The Alta99 is an automated substrate cutter its motor driven lead-screw drive mechanism provides consistent cutting speed for great edge quality. Automated cutting eliminates operator fatigue, increases production output and eliminates waste. Cuts clean, debris-free, eliminating secondary processing even with aluminum sheets and aluminum composite materials. The Alta has a 99" vertical height cut capacity, designed to process all standard 4'x8' sheet sizes of material such as Dibond (6mm), Alupalite (1/4"), Aluminum (.080"), Foam board(1/2"), PVC(1/2"), Coroplast(1/2") . Our unique cutting process provides virtually no debris allowing the Alta to be situated in the same shop area as your printer. The Alta will provide years of clean, straight, accurate and debris-free cuts eliminating the need for secondary finishing.
