

## FD 320 ECONOMICAL DOCUMENT FOLDER

The FD 320 Document Folder offers an unmatched level of performance and affordability. Designed with ease of operation in mind, the FD 320 utilizes a drop-in feed system, eliminating the need to fan paper. Clearly marked fold settings and removable top and bottom fold plates make this folder ideal for churches, schools, businesses or departments that demand quick and easy set-up and operation. An extended conveyor allows operators to run most applications without having to unload the output before the infeed is empty. As with all Formax folders, the FD 320 consists of a heavy-duty steel frame with molded, high-impact side covers for additional durability.

**FD 320**

## FD 342

**Optional Multi-Feeder:** The patented Multi-Sheet Feeder allows up to 4 sheets stapled or unstapled to be folded at one time through the dedicated feed system with its own side guides and skew adjustment system.

## FD 342 DOCUMENT FOLDER

The FD 342 Document Folder is a fast, dependable and easy-to-use solution for virtually all folding applications. Six popular folds are clearly marked on the fold plates for quick set-up and operation, simply slide the fold stop to the desired fold and go.

Additional fold adjustments can be made with the fine tuning knobs at the end of each fold plate for precision folding. No need to stand and watch over this folder, operators can load up to 500 sheets in the hopper, select their fold, press start and walk away to attend to other important tasks. The FD 342 will fold the 500 sheets in no time at all and hold the folded pieces on its patented Telescoping Conveyor System until they are retrieved.

The FD 342 is capable of processing paper up to 18" (457mm) in length and up to 12.25" (311mm) wide. The ability to customize jobs allows operators to fold virtually any configuration that requires only two folds. Cross folding adds to the FD 342's flexibility allowing for additional folds in a second pass.

## FD 38X FULLY AUTOMATIC DOCUMENT FOLDER

The Fully Automatic FD 38X Document Folder is the ideal folding solution for businesses, churches, schools or print-for-pay centers that demand quick and easy set-up. The FD 38X completes jobs fast: up to 20,100 pieces per hour! The large 2.8" (71mm) backlit LCD display and control panel is easy to use, while fully automated fold plates and AutoStack™ Stacker Wheels provide one touch set-up for the 18 pre-programmed fold settings or 35 custom folds that can be stored into memory. Operators can load up to 500 sheets in the hopper, select their fold, press start and walk away to attend to other important tasks. The task may be completed in as little as 2 minutes; the folded pieces will be stored on its patented Telescoping Conveyor System. The FD 38X advanced software allows all standard fold types and paper sizes to be customized.

## FD 382 AUTOMATIC DOCUMENT FOLDER

The FD 382 Document Folder is a high productivity automatic folder that offers quick, easy set-up, and the versatility to complete a variety of fold jobs in minutes. With folding rates up to 20,100 pieces per hour, the FD 382 fold plates provide one touch setup for 18 pre-programmed fold settings or 25 storable custom folds. In addition, the new 2.8" (71mm) backlit LCD display and control panel makes the FD 382 extremely easy to use, with a step by step user interface that is second to none. Untrained operators can walk up and start folding with little to no instruction. Once loaded and set, the FD 382 will fold 500 sheets, completing the job in a few 2 minutes. The finished pieces are stored on the patented Telescoping Conveyor System. The patented Multi-Sheet Feeder is an optional feature that allows up to 4 stapled or unstapled sheets to be folded at one time through the dedicated feed system with side guides and skew adjustment system. Advanced software allows for all standard fold types and paper sizes to be customized to meet your particular needs.
