

Magnapunch Heavy Duty Modular Punch

• 40,000 Sheets / Hour

Magnapunch Heavy Duty Punch

Punch up to 40,000 sheets an hour...with its half second punch cycle and continuous-duty motor, the Magnapunch is ideal for high-volume punching, when speed matters most. A variety of interchangeable die sets is available, so you can switch between all your punch patterns without tools, locks, or levers, and without slowing down production.

Disengageable pins let you alter patterns and tailor them for smaller-sized sheets. Includes one self-lubricating die set with disengageable punch pins. Additional die sets available separately. Standard automatic punch sensor and foot-pedal operation plus open throat for punching odd-sized items. Also includes extra-large drawer for paper chips and fully adjustable paper alignment guide.

MP2500iX Heavy Duty Punch

This heavy-duty punch can handle up to 16,000 sheets an hour and is quiet enough for use in office environments. LEDs make production easier by displaying power on, die-set information and full chip drawer. A range of interchangeable die sets are available to handle all your presentation spine styles.

Features include electric push-button or foot-pedal operation standard, automatic reverse to prevent paper jams, extra-large drawer for paper chips, fully adjustable paper alignment guide.

Interchangeable die sets allow changeout of punch patterns without changing machines. Dies are labeled for quick identification, slide easily in and out, and lock in place — no tools or levers required. Disengageable pins let you alter patterns and tailor them for smaller-sized sheets.

MP2000 Moderate Duty Punch

Choose from three different versions for up to 4 different binding styles.

MP2000 Moderate Duty Punch

Punching presentations is a snap with the MP2000 series punch. Ideal for offices, the single-pattern punch is available in several versions that are compatible with our most popular binding styles. Disengageable pins and a vertical throat make it easy to line up and punch in one step, even with special paper sizes.

Features electric push-button or foot-pedal operation, automatic reverse to prevent paper jams, open throat for punching odd-sized items, adjustable paper alignment guide and adjustable punch depth (on CombBind® version). Choose from multiple binding styles for a range of binding needs, including Color Coil®, CombBind® /ZipBind® and WireBind.
