

ProEDGE Framing Tools

Enhance your customer's image while protecting their signage with ProEDGE framing tools. ProEDGE provides the most consistent, efficient, and reliable plastic framing solution in today's marketplace. Based on patented technology, ProEDGE consistently delivers a professional look in mere minutes and at a fraction of the cost of traditional framing solutions. Its stability ensures product excellence while its ease of use eliminates production complexities and frustration. Satisfied customers and an efficient workforce are a sure-fire combination to optimize profits and expedite the return on your investment.

ProEDGE 2000-D

ProEDGE Hi-Tech Edging

- ProEdge Hi-Tech Edging is fade-resistant, comes in a variety of colors and fits substrates from 1/8" (3mm) to 1/2" (13MM) thick
- ProEdge Hi-Tech Edging is perfect for mounting Point of Purchase (POP) displays, photographs, and signs of all types and sizes
- ProEdge Hi-Tech Edging provides a custom fit to enhance and protect images as small as 2"x 2", as large as 8'x 8', and any random size in-between
- A customized uni-body frame means no floating images or straying edges, and it maximizes customer satisfaction to drive return business
