

PRECISION SAFETY STRAIGHT EDGES

Keencut Precision Safety Straight Edge rulers are the only rulers with guaranteed accuracy in the sign and graphics industry. Their exceptional straightness provides accurate cutting to within 1mm. Each ruler comes fitted with two full-length silicone grip strips to provide a steady gripping action while also protecting sensitive surfaces. The strong, precise and portable steel tip straight edge, in silver anodized aluminum, is perfect for marking, drawing, scoring or cutting.

- Lightweight yet hard-wearing, high-tensile aerospace aluminum alloy frame
- Embedded steel edge to resist wear
- Super-grade anodizing for a good lifetime appearance and function
- Intergral finger guard for maximum protection when cutting
- Machined hole for safe and convenient wall-mounting storage
- 100% manufactured by Keencut technicians in England
- 99.98% of materials from the best suppliers in Western Europe
