

**Revo-T14**  
**shown with cabinet/stand**  
 Included with Revo-T14.  
 Hinged door keep supplies  
 and film conveniently stored.

**Revo-T14**

**The Revo-T14** is a fully automatic encapsulation laminator that combines automatic feeding, laminating and cutting in one machine. Paper feed holds up to 300 sheets and runs automatically with just a push of the start button. The Revo-T14 includes a six roller system (2 steel) that allows for consistent quality with thin and thick paper stocks. With a short warm up time of five minutes and four heated rollers, encapsulation is easy, fast and consistent - saving valuable time for other tasks.

## Revo-T14

Automatic encapsulation with auto paper feeder and cutter. With a push of a button, laminate up to 420 sheets quickly and unattended. Roll film saves time and allows for variable lengths when laminating. Great for long encapsulated banners or custom materials.

### Customer Benefits

- Use as a desktop system or floor standing
- Automatic paper feed, laminate and cut in one process
- One button push start - will stop automatically when complete
- Six roller system delivers consistent quality with four heated and two steel rollers
- Simple access from top for easy film roll change and roller cleaning
- Runs continuous length and max. 12" width
- Two cooling fans for superior encapsulation transparency
- Internal rotary cutter for improved safety
- Compact design takes up minimal space
- Great for in-plants, print and copy shops

#### Maximum

width  
 **12"**

max. mil thickness  
 **1.5 - 5 mil**

#### Output

drive  
 **110v**

inches per minute  
 **63**

**TIP: Use 12" film on 12" x 18" digital stock for multiple images on sheets that will be flush-cut trimmed!**
