

## C340 / C450E Punch and Bind Comb Binding Systems

- Creates documents up to 425 pages thick

## C340 / C450E Punch and Bind Systems

The C340 and C450E make CombBind®/ZipBind® binding fast and easy! Bind up to 425 sheets of paper at a time for fast, customized bound documents. The sleek, compact design makes these models ideal creating presentations, training classes, manuals almost anywhere. The exclusive Paper Centering System aligns pages for perfect punching — up to 25 sheets per punch. Plus, the built-in Document Separator feature divides your stack of sheets into the right amount of pages for faster, more efficient punching.

The C450 features convenient push button electronic punching.

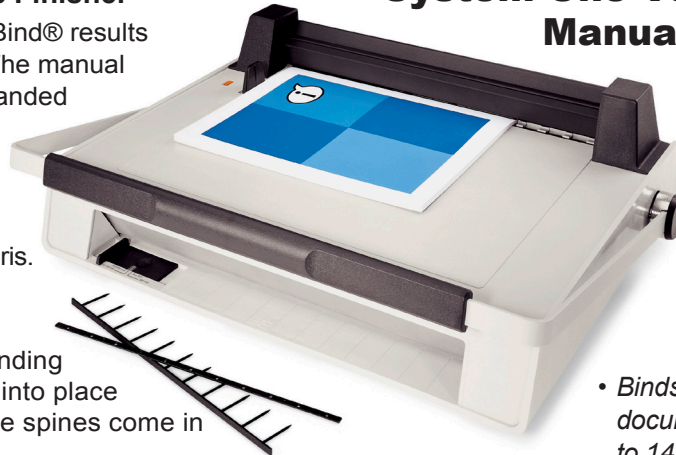

Limited one-year warranty.

## SYSTEM ONE Manual Punch / Electric Finisher

Get professional-looking VeloBind® or SureBind® results with this all-in-one punch and bind system. The manual punch handle is convenient for right or left-handed use. The pressure bar and alignment guide hold documents (up to 1" or 250 sheets) in place during electric finishing. Ready light indicates when binding is complete. Extra-large drawer for paper chips and pin debris.

System One creates a professional, book-like finished document, great for filing, stacking and mailing. And, with Hot Knife binding technology, spines permanently lock pages into place to keep reports and proposals secure. These spines come in a variety of sizes and colors.

## System One VeloBind® Manual Punch / Electric Finisher

- Binds documents 1" or 250 sheets
- Binds documents up to 14" in length

## C800pro Comb- Bind® ZipBind® Binding System

- Punching capacity up to 25 pages
- 425 sheet binding capacity

## C800pro CombBind®/ZipBind® Electric Plastic Comb Binding Machine

The new GBC CombBind® C800pro Electric Plastic Comb Binding Machine sets the industry standard for electric comb binding machines. This all metal plastic comb binding machine is extremely well built and is meant to stand the test of time. The GBC C800pro includes a heavy duty foot pedal operated comb binding punch with a manual plastic comb opener.

This system includes separate punching and binding controls for increased productivity, as well as adjustments for standard/oversize covers and punch depth. The C800pro includes an extra-large drawer for paper chads. Punch capacity is 25 pages; sheet binding capacity 425 sheets.

**ProClick® Pronto™ P3000 Automatic Punch and Binding Machine**

The ProClick® Pronto™ P3000 system offers integrated punching capability and automatic binding of the ProClick® spine. Easy-to-use and highly versatile, the P3000 provides professional, high-speed binding capabilities to a multitude of shared environments: corporate departments, educational and training settings, executive offices, and administrative groups. And, with a footprint similar to a laser printer, the P3000 can sit almost anywhere.

This maintenance-free binding system is easy-to-operate and requires no training. The intuitive LCD interface provides instructions as you bind. The machine is equipped with a document sizer to indicate the correct spine size, while the alignment guide ensures precise punch hole location.

The P3000 system is automated for high-volume production, with a six-second cycle that binds up to 450 books per hour. Pre-loaded 20 spine cassettes eliminate the need for loading individual binding spines.
