

Combines creasing
and perforation...

iCrease PRO+

in one simple yet
powerful machine.

The Count™ iCrease Pro + is a robust solution for creasing and perforation of digital media to eliminate cracking when folding. Get all of the automation of bigger Count machines in a simple hand-feed machine anyone can use. The iCrease Pro + can crease and perf in one pass (no need to refeed!), with multiple crease locations and perfect bind covers, with choice of automatic hinge placement or no hinge. Sheet set-up is automatic for 11 types of folds, including perfect binding, and 12 custom presets. Perforations are also a snap with 5 interchangeable perf options, including 2 micro-perf options.

- Simple one-step hand-feed operation means anyone can use it.
- Can crease and perforate in one pass – no need to manually refeed the paper into the machine after creasing.
- Two-sided die creasing rod accommodates shallow or deep crease for different stock – simply remove and flip over to change.
- Comes with pre-set crease locations for 11 different folds; plus 12 custom options to accommodate almost any fold.
- Crease up to 12 locations and 4 perforations per page.
- Switch from standard to micro perf in seconds – simply swap out the perf assembly.
- User-friendly touch screen for easy set up and control of the machine.

MODEL # ICPPLUS: SPECIFICATIONS

Weight:	63 lbs (29 kg)
Max Speed: (sheets/hour)	1,200
Paper Weight Range: (gsm)	60-350
Dimensions:	22.0 L x 51.0 W x 10.0 H in (56.0 x 130.0 x 25.0 cm)
Max Sheet Size:	19 x 13 in (48.3 x 33.0 cm)
Min Sheet Size:	3.5 x 5 in (8.9 x 12.7 cm)
Max Creases Per Sheet:	12
Max Perfs Per Sheet:	4
Electrical:	110/220 V, 50/60 Hz
