## Automatic Paper Ejector & Stacker Module

PHOTO: Onyx APES-14 attached to the HD7700 Ultima

Make your HD Punch more productive with the APES-14! APES stands for Automatic Paper Ejector & Stacker module. Operated with your Rhin-O-Tuff HD punch, it will punch, eject and stack in one operation. The APES-14 easily attaches to your HD6500 or HD7000 or HD7700 and handles paper sizes from 5½" X 5½" up to 14" X 14" (140 X 140mm to 356 X 356mm). For the occasional job it can't handle you can use your HD Punch in standard mode while the APES-14 is still attached.

- Ejects & Stacks in a single operation.
- Extends the useful life of your binding equipment.
- Increases punching output without a large capital outlay.
- Increases productivity up to 50% without additional labor.
- Handles paper sizes from 5½" X 5½" up to 14" X 14" (140 X 140mm to 356 X 356mm).
- Handles covers tock and tabs with ease.
- Can be used in Standard Mode for odd jobs while still attached.
