Full-Length Dual Coil Rollers electric top roller works with passive bottom roller to easily feed coil through oval holes.

Coil Roller Adjustment Dial easily adjusts for varying coil diameter sizes

Power Crimper Adjustment Dial adjusts crimper knives based upon coil diameter, ensuring a perfect crimp

Power Crimper Shield holds coils in place during crimping

The world's first desktop coil binding system to combine electric punching, coil insertion and crimping into a compact, modern design

Reliable Power Punching
Punches up to 20 sheets of 20lb. bond with punch button or hands-free foot pedal.

Smart Design
- Full-size, dual coil rollers improve binding efficiency.
- Larger oval punch pins improve coil insertion time up to 50%.

Power Crimping
Built-in electric crimper eliminates the need for cumbersome hand crimpers or pliers.

Intuitive Controls
LED panel and controls guide users through the binding process.
