

*The Combi Series machines are made in Germany, designed with a compact construction and are engineered of quality heavy gauge metals.*

## COMBI S

### Manual Punch & Bind Machine For Plastic Comb

#### OFFICE LINE

*Flexible and versatile. Pages open flat and can be changed later.*

The **Combi S** is a manually operated punch and bind machine for plastic comb with a binding width of 13.5". The **Combi S** can bind books up to 2" thick and punch up to 5,000 pages per hour. A combined two-lever system can easily punch and bind different types of cover stock. Pages can be easily added or removed with the plastic comb system - a big advantage if pages need to be adjusted or changed. The **Combi S** also includes adjustable margin control and disengaging punch pins for easy format adjustment. The **Combi S** measures 14.2" x 19.3" x 3.5" and binds up to 250 books per hour.

### Electric Punch and Manual Bind Machine for Plastic Comb

#### OFFICE LINE

*Easy to use with electric foot pedal and binds up to 280 books per hour.*

The **Combi Comfort** is the electric punch and manual binding machine for plastic comb. With all the same high quality features of the **Combi S** above, the **Combi Comfort** has a higher binding capacity of 280 books per hour and a higher punching capacity of up to 10,000 pages per hour. Punching is done precisely and quickly with a press of the foot pedal. The adjustable margin knob allows for variable margin setting and adjustment. Plastic binding combs are available in 11 different colors. The **Combi Comfort** measures 14.2" x 19.7" x 3.8" and includes a 90 W motor.

## COMBI COMFORT

### Electric Punch and Manual Bind Machine for Plastic Comb

#### OFFICE LINE

*The professional solution for small run publications and binds up to 300 books per hour.*

The **Combi E** includes an electric drive and an easy to use lever for binding. This combi is made for higher quantity output with added speed from the 250 W motor. With a press of the foot pedal, the **Combi E** can punch up to 25 sheets per cycle and up to 20,000 sheets per hour. The **Combi E** can accommodate many different types of cover or back cover stock and includes adjustable margin control and disengaging punch pins for easy format adjustment. The **Combi E** has a binding capacity of up to 300 books per hour and can bind books up to 2" in thickness. The **Combi E** measures 19.3" x 19.7" x 9.9".
