ELECTRIC PUNCH**

PB3300 Electric Punch

The World's only Electric-Punch with a Built-In Electric Wire Closer! Simple to operate and finishes documents up to 1-1/4" thick. The powerful electric punch handles up to 25 sheets per lift, with fast and easy die changeover. The "hands-free" foot pedal operated electric wire closer speeds productivity and guarantees a consistent finish. Small footprint table top model allows easy machine placement wherever it is needed. Finishes Double-O wire books from 2 to 210 sheets of 20# bond paper, on a bound edge up to 13" wide. Heavy duty steel dies punch up to 25 sheets of 20# bond in a single stroke. Tilted closing table and jaws offer optimum document positioning and assures an accurate close each time. Easily adjusts for different wire sizes. Built-in book thickness gauge for accurate Double-O wire size selection. Allows for punching various binding edge book sizes. 3:1 & 2:1 round or square dies are available for wire binding. Fast & simple - punch dies slide in and lock in place in less than 1 minute. Dies for plastic comb or plastic coil binding are also available.

EC-14 Wire Closer

The EC-14 is an affordable electric wire closer that will handle wire sizes from 3/16" to 1-1/4" and binding edges up to 14" length. Ease of use and operation makes this product a perfect choice for a wire closer. Durable and compact, it can sit on any desktop. Will handle all 3:1 and 2:1 wire from 3/16" up to 1-1/4" and binds up to a 14" binding edge. Engineered for operator safety – operator must use two hands to activate electric closer. All metal construction makes it durable.

WIRE CLOSER**

EB3500/5000/7000 Series Wire Closers

The EB series of high quality, ruggedly built electric wire closers is offered in 3 models to handle a variety of width documents; 14", 19-1/2" & 27-1/2". A tilted closing table and closing jaws provides optimum document positioning. The EB series of wire closers will handle all 3:1 and 2:1 wire from 3/16" up to 1-1/4". Changing the closing diameter size is accomplished with a simple twist of a knob. Optional Calendar Hanger is available for the EB5000 & EB7000 and can be ordered to handle loose or reeled calendar hangers from 2-3/4" up to 6" in length. Hanger inserter is a simple "plug and play" installation. Optional Stand is available for the EB5000 & EB7000 and can save valuable tabletop and floor space while permitting optimum operator position and efficiency. EB3500 handles documents up to 14" in width. EB5000 handles documents up to 19-1/2" in width. EB7000 handles documents up to 29-1/2" in width. Ergonomic Design - Tilted document feed and extendable document rest bars allow simple and optimum document positioning while minimizing operator fatigue.
