

Interchangeable Die Module Allows Rhin-O-Tuff Punches To Create Virtually Any Binding Punch Pattern*

Interchangeable Die Module

The internationally patented universal punch pattern creates an all-in-one punch binding solution.

Current owners of any HD 7000 Series punch can significantly expand binding method selection with a single investment.

The Universal Die Module creates punch patterns compatible with 20+ mechanical binding methods, including Double Wire Wire-o, Plastic Coil, Metal Coil, and Velobind and three ring binder patterns.

Standard pitches: 2:1, 3:1, 4:1, .2475", 5:1, 6mm and 2.5: 1.

Also compatible with the HD 6500 model.

Compatible With the BindRite Onyx HD 7100 Punch

HD7100 Heavy Duty Punch

Versatile and powerful 14" punch, with quick changing of dies for different binding styles. All steel construction; heavy-duty gear box.

Power: Punch up to 30/40 sheets.

Quick Change Die System: Change punch dies in just seconds – no bolts or tools. Or replace with the Universal Punch Die Module

Jam Clearing: Auto-reverse electronics, plus manual reverse for back-up to minimize down-time.

Operating Choice: Foot pedal included; palm switch and Versa Switch available.

U-View Chip Tray: Aids in knowing when to empty.

On-demand Punching: Saves energy while reducing noise levels.

Made With Pride In The USA

* Does not create patterns for comb binding
